

Premium DTF Film - Haining Comax New Material Co., Ltd.

DTF Warm Peel Film – 75µm Double Sides Coated DTF Transfer Film 0.70×100M Roll Matte Finish

	<p>Description</p> <p>The main advantage of Custom DTF Warm Peel Film Supplier is that it is a digital printing process that is fast and efficient. It is also cost-effective, requiring minimal setup and no screens or plates. Additionally, it can produce high-quality prints with a wide range of colors and textures. The main disadvantage of A3 DTF Factory is that it is not suitable for printing on dark fabrics, as the colors may not be as vibrant as they would be with other printing methods.</p>
