

Premium DTF Film - Haining Comax New Material Co., Ltd.

DTF Transfer Released Sheet – 75µm Double Sides Coated DTF Transfer Film 14" × 16" Sheet Matte Finish

	<p>Description</p> <p>The cost of a PET film roll for DTF printing depends on the size and type of film used. Generally, the larger the roll, the more expensive it will be. Additionally, the type of film used will also affect the cost. For example, a PET film roll with a higher resolution will cost more than a lower-resolution film. When comparing the price of a DTF Transfer Released Sheet for DTF printing to other printing methods, it is essential to consider the cost of the substrate as well. For example, if you are printing on fabric, the cost of the fabric will need to be considered. The cost of inks and other materials used in the printing process should also be considered.</p>
